

# ANIMAL HEALTH ROUNDTABLE

Sharing Experience and Best Practices in Biosecurity and Food Security

Please join us for a virtual Animal Health Roundtable between Kansas and Czechia. Government, academic and industry leaders from both countries will share information about the state of the industry and innovative research.

In addition to the overview, discussion will focus on how animal health issues intersect with biosecurity and food security. We look forward to the conversation, making new connections, and strengthening existing relationships that create economic opportunities and advance solutions to global problems.

8:00 - 10:45 a.m. CST, February 4  
3:00 - 5:45 p.m. Czech time, February 4
